

Since 1972

Company profile

Quality and Innovation in the Coatings Industry since 1972

In **1972**, NEOKEM started the development and production of high quality coatings that matched and even exceeded the expectations of our customers.

In **1987**, in a demanding environment for advanced high-tech products, we were the first Greek company to implement the production of **powder coatings** for aluminum architectural systems, industrial and other uses.

In **2006**, inspired by the market trends and motivated by our customers' particular needs, we produced **super durable powder coatings** with excellent resistance to adverse outdoor conditions.

Today, our business continues to grow along with our goals and expectations. Our international presence and exports have always been strategic priority. We are a leading international **Powder Coating manufacturer** with products that are globally recognised and distributed in over **25 countries** through our network of subsidiaries and sales partners.

Our Products

We make environmentally friendly **powder coatings** that reflect the current market needs for

- Superior Quality
- Appearance
- Utility
- Durability

We offer the best solutions through our **extensive product ranges.**

Our Applications

Architectural Applications

Industrial Applications

Domestic Appliances

Architectural applications

Architectural applications are probably the most challenging ones. The technical and environmental standards are constantly rising. Our collections **Prisma**, **Ammos**, **RAL Metallic** and **RAL Matt Polyester** have been designed to meet the demands and preferences of contemporary architecture.

Main Applications: Facades, Doors, Windows, Blinds, Pergolas, Rails, Fences, Garage Doors.

Industrial Applications

We offer a complete series of polyester, epoxy and polyester epoxy powder coatings for industrial applications.

Main Applications: Solar Panels, Lighting Equipment, Shelving Systems, Lab Equipment, Store Equipment.

Domestic Appliances

We offer a complete range of epoxy polyester powder coatings especially designed for indoor applications such as home appliances, offering the options for a distinctive look, unique design functionality and durability in classic and trendy colors.

Main Applications: Refrigerators, Dishwashers, Washing Machines, Ventilation, Ovens, Radiators, Air Conditioning.

Functional Coatings

Powder coatings on functional applications mainly offer a high abrasion, high corrosion, and high impact resistance. We have invested in the relevant technologies to achieve optimum results. We offer a product range with specialized characteristics and benefits for the user. All our products are solvent free, environmentally friendly and recyclable.

Main Applications: Valves and Fittings Accessories, Pipelines.

We are seeking for...

a dynamic and energetic sales partner with proven success in sales projects to:

- manage (sales) activities in assigned territory
- develop relationships with key partners for growth of our products within their markets
- extend the company's network & promote Neokem's products across the channel network
