

Dear Sir/Madam,

We greet you and your distinguished company!

It is an honor for us to introduce aluminum sector companies from Russia that are searching for partners, distributors and sponsors from the UAE and Saudi Arabia. The companies below will visit Riyadh on the 12th of December. They will be ready to meet with you at the location of your choosing.

We kindly ask you to arrange meetings with these companies, many of which have gained international experience and are ready to expand their business and start cooperation with you. Additional materials are available upon request.

Brief information about the Russian companies

REALIT		https://realit.ru/en/	The company is engaged in the manufacturing of products from aluminum wrought alloys in the form of cylindrical ingots, aluminum profiles, building systems and extruded products for general construction purposes.
Masttech		https://masttech.ru/	The company develops and manufactures cold and warm aluminum profile systems, allowing the production of a full range of translucent structures from balcony glazing to stained glass systems with a hidden sash, including fire protection.
ALBES/GK ASP		https://albes.ru/	ALBES is the largest manufacturer of affordable and high-quality finishing materials made of sheet metal for interior and exterior decoration of buildings and structures for various purposes in Russia.
